You call that passing the orange?

Joyce Cox, Bill Myers, Rita Hunter, Wayne Alford, Janice Moody, Ernest Fluckey, Karen McConnell, Mike Hollembeak, Dianne Busen, Roger Johnson.

Following a victorious game over Petersburg, 21-0, on September 28, fans shed their sports clothes in favor of more formal wear for the Annual Homecoming Dance sponsored by the Senior Class. The theme of "Autumn Leaves" was carried out by a wall mural, a false ceiling, and the throne. A pool reflected the fall colors. The music for the evening was furnished by Junior Mussolino's Band. The coronation of Ernest Fluckey, and Janice Moody as King and Queen of the 1963 Homecoming highlighted the evening.

The Varsity Klub is composed of athletes and managers who have earned a letter in any sport.
The major project of the club is to deliver toys to the underprivileged children of the county during the Christmas season. These toys which are donated are repaired by members of the club in the weeks previous to Christmas.
This year the club raised enough money for badly needed glass backboards.

"The problem states . . ."

The Future Teachers of America consists of students that plan to teach. The duty of of the F.T.A. is to show these students the problems and advantages found in teaching; also the qualities needed for teaching.

Although there are many activities in F.T.A., our main one is student teaching. The students are able to meet some of the situations first hand. This helps them make up their minds, and clarifies any doubts about their future careers. On April 23 and 24 eighteen seniors taught in the schools of the community.

The Science Club is an organization of students who have an interest in some field of science. It is open to all students having at least one semester of any science course. The purposes of the club are to learn about science, science careers, and the opportunities, responsiblilities, and the important role science plays in our democracy, and to explore our own interest and abilities in relation to the various fields of science.
